

USER INFORMATION SHEET- ENISO 20471:2013 +A1:2016

Description: High Visibility clothing in yellow or orange in 60% cotton 40% polyester with reflective tape

STYLE NO:20002

ENISO 20471:2013 Class 2 Area of background material and reflective tape (2 is the middle class)  
 ENISO 20471:2013 Class 2 Retroreflective material performance (2 is the highest class)

Class 2 requires at least 0.5m<sup>2</sup> fluorescent fabric and 0.13m<sup>2</sup> reflective material.

Limitations of use: The garments should be worn fastened at all times to provide the correct level of protection as stated above.

Instruction for use: Wash the garment inside out to protect the reflective tape during washing. Wash only using products without optical brightener to avoid colour change and the decrease of luminance.

Storage: Do NOT store in places subject to direct strong sunlight. If the garment becomes wet allow to dry at room temperature before storing.

As far as we know, there are no components that cause allergy.

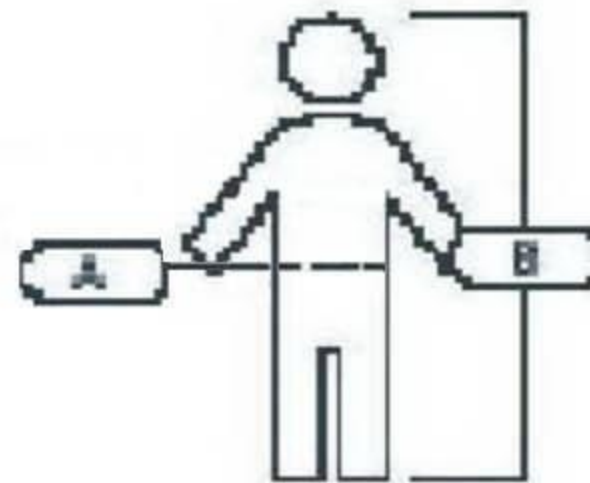

This garment must be kept clean to remain effective. Replace immediately if permanently stained or faded.

In case of damaged reflective tape, the visibility is no longer guaranteed.

Available Sizes & Selection:

Fit according to chest size. This garment has a 10cm allowance built in for comfort and to allow the garment to be worn over light layers of clothing. If bulkier clothing has to be worn underneath, a larger size may be required.

Size	A (CM) - Waist	B (CM) - Height
48	78-82	166-170
